PLACES TO VISIT | THINGS TO DO

Beyond the 13 miles of beach, there are a number of local sights to visit. At the north end of the island is Smyrna Dunes Park with 73 acres surrounded by water on three sides. You'll find dog beach, the Atlantic Ocean, the inlet with a view of Lighthouse Point, a dunes walkway, and guided nature walks. At the southern end is the Canaveral National Seashore, which isn't really in New Smyrna Beach, but you can only get there through it. It includes the beach, Mosquito Lagoon, and dunes. It is one of the longest expanses of undeveloped land along Florida's East Coast. Eldora State House is a historic site in the Canaveral National Seashore and is one of the best examples of earlier life along the Mosquito Lagoon.
